

Fisher Oak Savanna Nature Preserve

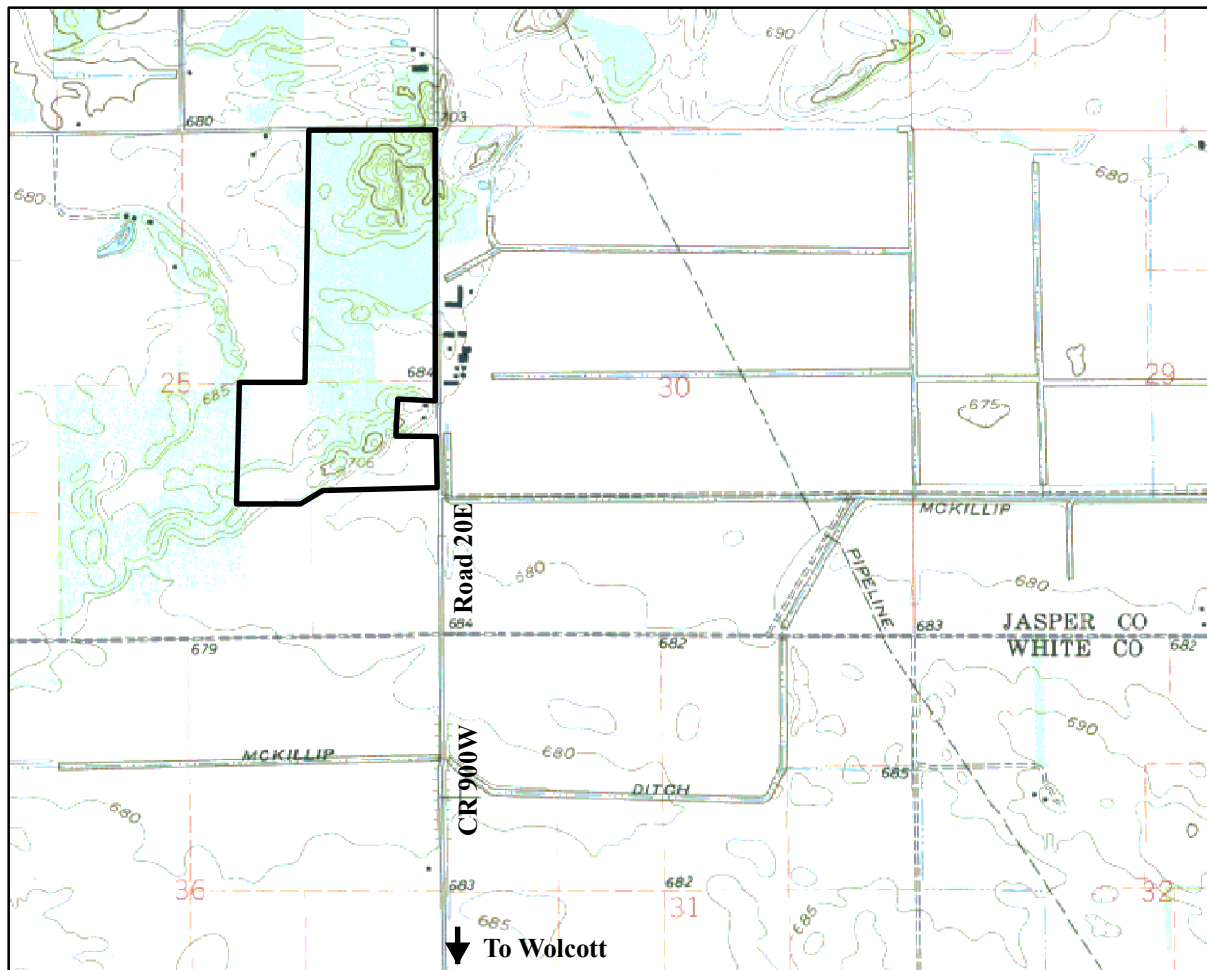

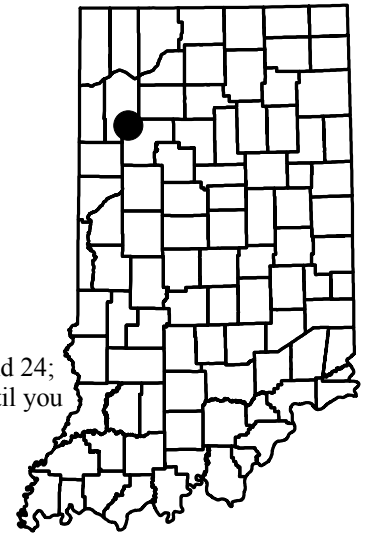

County: Jasper

Size: 133 acres

Ownership: NICHES Land Trust

Location and Access

To reach Fisher Oak Savanna Nature Preserve, if coming on I-65, get off at Exit 193 and go north on US 231 to Wolcott in White County. About a half mile north of railroad crossing in Wolcott, highways 231 and 24 turn to the west. DO NOT turn west (left) on highways 231 and 24; instead go straight ahead on 900W, (turns into Road 20E in Jasper County), about 6 miles until you come to an older white farm house on a rise on the left side of the road. Drive ahead about 1/8 mile to the gravel parking area on the west (left) side of the road.

Description

Three habitat types meet on this preserve: pin oak flatwoods, sand prairie/savanna, and wet black soil prairie. The pin oak flatwoods supports black, white, and pin oaks. Blueberry and a variety of herbaceous plants are also present in the pin oak flatwoods. Restoration work is underway in a portion of the sand prairie/savanna and all of the black soil prairie.
